

## ***SUPERFISHXL***

The Super Fish XL has all of the features that make the Super Fish such a blast to ride but with the extra volume and length to be the perfect step down from a long board or a high volume big guy performance fish.

The reason for the Super Fish XL success is that the XL blends the same high performance surfing with wave catching ability as the Super Fish. With high volume under the chest this allows you to ride a shorter board than usual while still raking in a high wave count.

The XL also has the optional tri/quad fin setup and comes with all five fins so you can ride it either way. This is one of the most fun designs ever shaped and it comes in a size range for every surfer.
