

AF1

The AF1 Tour is geared exclusively towards high performance surfing and has been refined to meet the demands of the modern day pro surfer. Featuring a smooth progressive rocker and state of the art SLXC construction, the AF1 Tour feels incredibly light, sensitive, and offers amazing response.

Aloha's own team of surfers have incorporated this particular model into their quivers. Ultimately the boards available on the rack are the exact same boards used in competition by the pros.

The AF1 Tour allows you to explore the most critical sections of the wave and is the essential board for the committed surfer looking to maximise their performance.

Performance Rail

2-10ft Waves

Intermediate - Advanced

LENGTH	WIDTH	THICK	VOLUME	FINS	APPROX WEIGHT RANGE
5'10"	18	2 1/16"	22 ltr	FCS M5	0-132lbs (0-60kg)
5'11"	18 1/8"	2 2/16"	23 ltr	FCS M5	132lbs (60kg)
6'0"	18 1/4"	2 3/16"	25 ltr	FCS M5	143lbs (65kg)
6'1"	18 3/8"	2 1/4"	26 ltr	FCS M5	154lbs (70kg)
